For these reasons, personal jurisdiction exists and venue is proper in this Court under 28 U.S.C. §§ 1391(b) and (c) and 28 U.S.C. § 1400(b).

III. PATENT INFRINGEMENT

12. On November 11, 2008, United States Patent No. 7,451,106 B1 ("the '106 Patent") was duly and legally issued. The '106 Patent is titled "System and Method for Competitive Pricing and Procurement of Customized Goods and Services" and discloses an apparatus and method for creating a database representing pools of vendors of customized goods and services for one or more subscribing buyers, and for selecting the lowest bidder from the

database's represented vendor pool on a per-job basis. A true and correct copy of the '106 Patent is attached hereto as Exhibit "A" and incorporated herein by reference. More particularly, the '106 Patent: (i) creates and maintains a database representing a vendor base or pool for each subscribing buyer of customized goods and services, the database further representing capabilities of said vendors, (ii) receives solicitation data containing production specifications and related contracting terms and vendor qualification criteria from buyers, (iii) extracts vendor qualification criteria data from said solicitation data, and (iv) transmits invitations to bid on said solicitations to qualified ones of said vendors, based on said vendor qualification criteria data.

13. Plaintiff is the owner of all right, title and interest in and to the '106 Patent, including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the '106 Patent. Accordingly, Plaintiff possesses the exclusive right and standing to prosecute the present action for infringement of the '106 Patent by these Defendants.

14. On August 31, 2010, United States Patent No. 7,788,143 B2 ("the '143 Patent") was duly and legally issued. A true and correct copy of the '143 Patent is attached hereto as Exhibit "B" and incorporated herein by reference. More particularly, like the '106 Patent, the '143 Patent (i) creates and maintains a database representing a vendor base or pool for each subscribing buyer of customized goods and services, the database further representing capabilities of said vendors, (ii) receives solicitations containing production specifications and related contracting

terms and vendor qualification criteria from buyers, (iii) compares the vendor records to the data in the solicitations to identify qualified vendors, (iv) transmits invitations to bid on said solicitations to the qualified vendors, based on the vendor qualification criteria, and (v) outputs at least one bid response to the buyer.

15. Plaintiff is the owner of all right, title and interest in and to the '143 Patent, including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the '143 Patent. Accordingly, Plaintiff possesses the exclusive right and standing to prosecute the present action for infringement of the '143 Patent by these Defendants.

16. Upon information and belief, each and all of the Defendants have manufactured, made, marketed, sold, and/or used computer networks, systems, products and/or services comprising all of the elements and limitations of one or more of the claims of both the '106 Patent and the '143 Patent, and therefore each and all of the Defendants have infringed one or more claims of the '106 and '143 Patents; and/or have induced and/or contributed to the infringement of one or more of the claims of the '106 and '143 Patents by others.

17. By way of example only, J.C. Penney's use of the RR Donnelley GDS system infringes one or more claims of the '106 and '143 Patents.

21. More specifically, on information and belief, Defendant Quadrem, without authority, consent, right, or license, and in direct infringement of the '106 and '143 Patents, manufactures, has manufactured, makes, has made, uses, has used, sells, has sold, offers for sale, has offered for sale, distributes, and/or has distributed, systems, products, and/or services infringing one or more claims of the '106 and '143 Patents. By way of example only, the Cirqit eProcurement system infringes one or more claims of the '106 and '143 Patents.

25. Plaintiff has been damaged as a result of each and all of the Defendants' infringing conduct. Each of the Defendants is thus liable to Plaintiff for damages in an amount that adequately compensates for such Defendant's infringement, *i.e.*, in an amount that by law cannot be less than would constitute a reasonable royalty for the use of the patented technology, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

26. Upon information and belief, each and all of the Defendants will continue their infringement of one or more claims of the '106 and '143 Patents unless enjoined by the Court. Each and all of the Defendants' infringing conduct thus causes Plaintiff irreparable harm and will continue to cause such harm without the issuance of an injunction.
